#	Elements	<b>Points per element</b>
	PART 1 - GENERAL INFORMATION	
1	Required identifying information - 4 points	
a.	Focus person's pseudonym or initials	
b.	Focus person's age	1 point for A-D
c.	Referral source & contacts	
d.	Facilitator name	
e	Focus person's gender identification	
f.	Focus person's preferred pronouns are noted	1 point for E-H
g.	Focus person's person first or identity first language is honored as observed with the team	
h.	own decisions)	1
i.	The focus person's preferred method of communication is documented.	1
	PART 2 - PERSON'S HISTORY AND CURRENT INFORMATION	
2	Focus person's strengths: What others like and admire about the person - 2 points	
a.	Includes person's strengths, including skills	1
b.	Describes the person's personality characteristics	1
3	Brief history of the focus person's life - 12 points	
a.1	Current residence is described	1
a.2	Past residences are described. Indicates if there are no past residences.	1
b.	Biological family history and current status is described	1
c.	Educational history is described	1
d.	Previous support services are documented	1
e.1	Dream statement is included in plan (1 point) and focus person's involvement in the statement (1 point) is described	2
e.2	How the person's life lines up with what they want life to be like (dream statement) is explained.	1
f.1	History of person's social life and community connections are described	1
f.2	History of daytime engagement is described	1
g.	Adaptive equipment and necessary accommodations are described.	1
h.	Person's culture/heritage is described.	1
	This section is about explaining what is Important To/For the person, plus at least 3 additional person-centered	
	approaches are conducted with the team and outcome is documented. (Donut, 4+1, Good Day/Bad Day,	
4	Reputations/Reframing, two-minute drill, what's working/Not working, relationship mapping, Learning log, Rituals and	
a.	currently balanced is included. (1 point)	3
b.	are described	3
c.	Person Centered approach #2: The tool, (1 point) how it was used (1 point), and the how (1 point) are described	3

d.	are described	3
5	Current Important places and people for the focus person - 3 points	
a.	engagement, that is indicated	1
b.	Important places in the community for the focus person are described	1
c.	Important people for the focus person and opportunities to interact are described	1
6	Preference assessment information - 3 points	
a.	How the person enjoys spending their time is described	1
b.	The method of gathering preference information is described	1
c.	The results of a preference assessment are described	1
7	Opportunities for choice in the focus person's current environment are described	1
8	Issues of focus person's control over their current environment are documented	1
9	Health and physiology issues - 7 points	
a.	Childhood health and development is discussed. It is noted if childhood information is not available	1
b.	Etiology (if appropriate) and diagnoses or absence of diagnosis of physical health are described	1
c.	Etiology (if appropriate) and diagnoses or absence of diagnosis of mental health are described	1
d.	The plan includes a description of how the focus person's health influences their current life	1
e.	point)	2
f.	noted	1
10	Trauma - 2 points	
a.	The plan documents whether the person has experienced trauma. If the person did not experience trauma, it is noted	1
b.	How trauma impacts the focus person's behavior is documented. If trauma does not impact behavior, it is noted	1
11	Mobility - 2 points	
a.	The person's ability to move around is described	1
b.	The person's transportation access is discussed	1
12	Current Weekly Schedule - 5 points	
a.	The plan describes a weekly schedule of what the person does daily (1 point) and the times of day the events occur (1 point)	2
b.	The plan includes the focus person's comments and/or participation regarding their current activities	1
c.	The plan documents the focus person's perspective on whether they want to continue to participate in current activities	1
d.	The plan describes the predictability of the focus person's schedule	1
15	Reason For Referral - 4 points	
a.	The reason why PBS services are being requested is documented	1
b.	Behavior of concern is described	1
c.	Impact of the behavior on the focus person's (1 point) and team's (1 point) day -to-day life is described	2
16	Positive Behavior Support Team - 12 points	

a.	Focus person's choice of team participants is described	1
b.	Roles of team members are described (excluding PBS Facilitator)	1
c.	Team's positive characteristics are described	1
d.	Strategies to address team's challenges and obstacles are described	1
e.	Strategies used to give the focus person control in team meetings are described	1
f.	agreement (1 point) on behavior of concern, and commitment to address it by signed consent (1 point)	3
g.	The risks (1 point) and benefits of services(1 point) are described	2
h.	The plan describes the role of the PBS Facilitator (1 point)	1
i.	The plan documents whether needed accommodations were provided for team members	1
	PART 3 – ASSESSMENT	
17	Functional Behavior Assessment 2 points	
a	It is documented that FBA was conducted in location where person uses services	1
b.	The plan documents that the FBA is within 6 months of current date	1
18	Indirect assessment - 4 points	
a.	The plan describes that record reviews were conducted.	1
b.	The plan describes that support team was interviewed	1
c.	The plan describes the focus persons's involvement in the interview	1
d.	The plan documents lists what assessment tools were used.	1
19	Direct Assessment from observations - 3 points	
a.	Direct assessments are described in the plan.	1
b.	Raw data are included in the plan.	1
c.	Method of measurement of behavior is documented and explained in plan.	1
20	Operational Definition of the Behavior of concern - 6 points	
a.	Behavior (s) of concern's definition in operational terms	1
b.	Includes method of measurement for behavior(s)	1
c.	Intensity is described	1
d.	Risks and negative outcomes are described	1
e.	Examples of the behavior are included	1
f.	Non examples of the behavior are included	1
21	Items included in Functional Behavior Assessment (FBA) - 5 points	
a.	Setting events/motivating operations for each behavior are described	1
b.	Antecedents are described for each behavior	1
c.	Consequences are described for each behavior	1
d.	Description of the functions of the behavior match to accepted operant functions	1

e.	Description if there are non-operant conditions that influence behavior. Note if non-operant conditions are not present.	1
22	Baseline data are clearly graphed - 3 points	
a.	Graph axes are labeled	1
b.	Graph is titled	1
c.	Behavior(s) of concern are identified by legend or otherwise	1
	PART 4 – INTERVENTIONS AND SUPPORTS	
23	Function Based Interventions - 5 points	
a.	Rationales for intervention design are stated	1
b.	Hypothesis statement contains setting event/motivating operation	1
c.	Hypothesis statement contains antecedent	1
d.	Hypothesis statement contains behavior	1
e.	Hypothesis statement contains consequence	1
24	identified	1
25	Criteria for success and goals for the intervention are described 3 points	
a	Goals for the intervention are described	1
b.	Team input for establishing criteria is documented - What does the team determine as a successful outcome?	1
c.	Focus person's agreement for criteria is documented. What does the focus person determine as a successful outcome?	1
1		
26	Replacement Behaviors - Targets for Increase - 6 points	
	Replacement Behaviors - Targets for Increase - 6 points  Provides description of how the replacement behavior addresses the function of the behavior	1
26	Replacement Behaviors - Targets for Increase - 6 points  Provides description of how the replacement behavior addresses the function of the behavior Replacement behavior(s) are operationally defined	1
26 a.	Replacement Behaviors - Targets for Increase - 6 points  Provides description of how the replacement behavior addresses the function of the behavior	
26 a. b.	Replacement Behaviors - Targets for Increase - 6 points  Provides description of how the replacement behavior addresses the function of the behavior Replacement behavior(s) are operationally defined  Replacement behavior includes method of measurement  Includes examples (1 point)/non-examples (1 point) of replacement behaviors	1
26 a. b. c.	Replacement Behaviors - Targets for Increase - 6 points  Provides description of how the replacement behavior addresses the function of the behavior Replacement behavior(s) are operationally defined Replacement behavior includes method of measurement	1 1
26 a. b. c. d. e. 27	Replacement Behaviors - Targets for Increase - 6 points  Provides description of how the replacement behavior addresses the function of the behavior Replacement behavior(s) are operationally defined Replacement behavior includes method of measurement Includes examples (1 point)/non-examples (1 point) of replacement behaviors  Method for how the replacement behavior is taught to the focus person is described  changes need to be made, it is noted.	1 1 2
26 a. b. c. d. e.	Replacement Behaviors - Targets for Increase - 6 points  Provides description of how the replacement behavior addresses the function of the behavior Replacement behavior(s) are operationally defined  Replacement behavior includes method of measurement  Includes examples (1 point)/non-examples (1 point) of replacement behaviors  Method for how the replacement behavior is taught to the focus person is described changes need to be made, it is noted.  Antecedent Interventions - 6 points	1 1 2 1
26 a. b. c. d. e. 27	Replacement Behaviors - Targets for Increase - 6 points  Provides description of how the replacement behavior addresses the function of the behavior Replacement behavior(s) are operationally defined  Replacement behavior includes method of measurement  Includes examples (1 point)/non-examples (1 point) of replacement behaviors  Method for how the replacement behavior is taught to the focus person is described  changes need to be made, it is noted.  Antecedent Interventions - 6 points  Antecedent interventions describe stimuli that should (1 point) and should not be present (1 point)	1 1 2 1
26 a. b. c. d. e. 27	Replacement Behaviors - Targets for Increase - 6 points  Provides description of how the replacement behavior addresses the function of the behavior Replacement behavior(s) are operationally defined  Replacement behavior includes method of measurement  Includes examples (1 point)/non-examples (1 point) of replacement behaviors  Method for how the replacement behavior is taught to the focus person is described changes need to be made, it is noted.  Antecedent Interventions - 6 points  Antecedent interventions describe stimuli that should (1 point) and should not be present (1 point)  Antecedent interventions address motivating operations/setting events for the behavior	1 1 2 1 1
26 a. b. c. d. e. 27 28 a.	Replacement Behaviors - Targets for Increase - 6 points  Provides description of how the replacement behavior addresses the function of the behavior Replacement behavior(s) are operationally defined Replacement behavior includes method of measurement Includes examples (1 point)/non-examples (1 point) of replacement behaviors Method for how the replacement behavior is taught to the focus person is described changes need to be made, it is noted.  Antecedent Interventions - 6 points  Antecedent interventions describe stimuli that should (1 point) and should not be present (1 point) Antecedent interventions address motivating operations/setting events for the behavior person be guided to cope with identified triggers for the behavior?	1 1 2 1 1
26 a. b. c. d. e. 27 28 a. b.	Replacement Behaviors - Targets for Increase - 6 points  Provides description of how the replacement behavior addresses the function of the behavior  Replacement behavior(s) are operationally defined  Replacement behavior includes method of measurement  Includes examples (1 point)/non-examples (1 point) of replacement behaviors  Method for how the replacement behavior is taught to the focus person is described  changes need to be made, it is noted.  Antecedent Interventions - 6 points  Antecedent interventions describe stimuli that should (1 point) and should not be present (1 point)  Antecedent interventions address motivating operations/setting events for the behavior  person be guided to cope with identified triggers for the behavior?  Environmental interventions that address schedule predictability are addressed	1 1 2 1 1
26 a. b. c. d. e. 27 28 a. b. c. d.	Replacement Behaviors - Targets for Increase - 6 points  Provides description of how the replacement behavior addresses the function of the behavior  Replacement behavior(s) are operationally defined  Replacement behavior includes method of measurement  Includes examples (1 point)/non-examples (1 point) of replacement behaviors  Method for how the replacement behavior is taught to the focus person is described  changes need to be made, it is noted.  Antecedent Interventions - 6 points  Antecedent interventions describe stimuli that should (1 point) and should not be present (1 point)  Antecedent interventions address motivating operations/setting events for the behavior  person be guided to cope with identified triggers for the behavior?  Environmental interventions that address schedule predictability are addressed  Environmental intervention that addresses good match of staff/family/peer interactions is provided	1 1 2 1 1 2 2 1 1
26 a. b. c. d. e. 27 28 a. b. c. d.	Replacement Behaviors - Targets for Increase - 6 points  Provides description of how the replacement behavior addresses the function of the behavior Replacement behavior(s) are operationally defined Replacement behavior includes method of measurement Includes examples (1 point)/non-examples (1 point) of replacement behaviors Method for how the replacement behavior is taught to the focus person is described changes need to be made, it is noted. d.	Strategies to make reinforcers as effective as possible (immediate, preferred, and specific, for example)	1
e.	Schedule of positive or negative reinforcement is described	1
f.	Team input for establishing criteria is documented- What did the team determine as a successful outctome?	2
30	Data Collection/ Training Others - 2 points	
a.	Team's input and approval regarding measurement strategy and data collection is documented	1
b.	Outcomes of data and effects of intervention are described.	1
31	approach, with the following described: 5 points	
a.	verbal and/or written instruction	1
b.	modeling	1
c.	roleplay or rehearsal	1
d.	feedback	1
e.	Includes short version of the plan that was given to direct care staff for quick reference	1
32	Graph of Intervention Data - 7 points	
a.	arrows, text boxes etc.	1
b.	Replacement behavior is graphed	1
c.	Graph x (1 point) and y axes (1 point) are labeled accurately	2
d.	Graph is titled	1
e.	Behavior of concern and replacement behavior are identified by legend or otherwise	1
33	A statement regarding the effectiveness of interventions is made	1
34	Resources needed are described (1 point), including time requirements for implementation (1 point)	2
35	Financial costs related to interventions are addressed	1
36	Date of initial plan is included	1
37	Signatures of person and guardian and date are included. If person is unable to sign, their participation is indicated.	2
	PART 5– FOLLOW-UP	
38	Follow up and Continuous Evaluation - 7 points	
a.	Timeline for follow up meetings is provided	1
b.	Tasks to be done are listed with descriptions	1
c.	Person responsible for carrying out task is listed	1
d.	Measures to be gathered for continued evaluation are described	1
e	Direct evaluation measures are described	1
f.	Indirect evaluation measures are described	1
g	As the result of the intervention, differences that may have occurred in removing inequities, power imbalances, biases,	
	barriers in systems, practices, policies and settings are described. It is noted if there are not any changes in these areas.	1
39	Sustainability - 3 points	

a.	Plan for transitions or a major change in setting events is stated	1	
b.	After initial training of existing staff has occurred, a description of how new staff or care giver will be trained is provided	1	
c.	Strategy and criteria for thinning reinforcement is addressed	1	
40	Person Centered terms are used to reflect the focus person throughout the document - 1 point	1	
	PART 6 – ATTACHMENTS		
41	All pertinent supporting materials are included with the report including: 5 points		
a.	Raw data sheets	1	
b.	Meeting notes	1	
c.	Questionnaires/Assessments	1	
d.	Person Centered Tools	1	
e.	Teaching log/instructional program for sharing plan with support staff or family members	1	
	Total possible points	<u> </u>	156
